Founded in 2013, BenevolentAI is the global leader in the development and application of AI and machine learning for scientific innovation. The company aims to accelerate the journey from inventive ideas to medicines for patients by developing AI to generate new treatments for some of the world's 8,000 untreated diseases.

Discover BenevolentAI

Founded in 2014, Doctify is revolutionising the global healthcare market, enabling patients to search, book and review medical specialists online. The company strongly believes in the benefit of patient reviews, arguing that they strengthen the patient-specialist relationship by empowering people to make informed decisions. Doctify also recognises the exceptional dedication of

doctors and health specialists.

Since its establishment in 2011, Vectorious Medical Technologies developed the V-LAP, a revolutionary in-heart microcomputer enabling optimal treatment for heart disease patients. Both quality of life and life expectancy are increased when it is in place. Vectorious is actively conducting clinical studies in Europe (Italy, Germany, UK and Israel) so as to obtain a CE mark.

Discover Vectorious

Founded in 2004, Perfect Ward is a health and quality inspection solution that makes quality inspections quicker, easier and more effective. Healthcare staff shouldn't be spending more time doing admin work than caring for patients. The app makes quality inspections easy and more efficient and is usable across all clinical areas, including wards, theatres, care homes, and community and social care.

Discover Perfect Ward

Founded in 2015, Elder believes that nobody should have to go into a care home unless he or she wants to by focusing on quality, compassion and reliability. Elder has provided more than 350,000 days of care in 300 towns and cities across the UK as it's building the alternative to the care home across the UK & Europe and aim to reshape how society looks after their elderly.

We're delighted to be featured in @ST_FastTrack as the 9th fastest growing UK technology company. Testament to relentless hard work and

determination shown by our team - well done
