

L'avenir de notre santé se joue-t-il dans notre salon ? / Ana Maiques, CEO of Neuroelectrics

Véritable festival d'innovation, la Maddy Keynote, porté par Maddyness, le média de référence des entreprises innovantes et des acteurs et actrices de l'innovation en France, rassemble depuis maintenant 6 ans, celles et ceux qui pensent et construisent le monde de demain.

The successful implementation of deeptech could propel a big step forward in the treatment of neurological diseases. What if instead of taking a pill or having to go to a hospital you could receive treatment from your living room? Remote brain therapy is becoming increasingly feasible using techniques such as at-home treatment which lets patients change the way they receive treatment by allowing them to receive stimulation from the comfort of their houses.
